SUMMARY

Fullstack software developer with experience in app/software development and always learning about cloud & AI. Passionate about problem-solving and creating efficient solutions. I am looking for an opportunity to apply my knowledge and continue growing in a professional environment.

LANGUAGES

Spanish & Catalan (Native) | English (Professional / C1)

WORK EXPERIENCE

Junior Analyst | Minsait   *December 2024 - March 2025*

- Developed and maintained scalable microservices using Java Spring Boot, ensuring efficient integration between modules.
- Implemented dynamic user interfaces with React, optimizing user experience for corporate web applications.
- Designed and executed Batch processes for massive data processing, improving operational efficiency.
- Assured code quality through Unit Testing (JUnit/Mockito), reducing error incidence in production environments.

Fullstack Developer (Internship) | AncoraDual   *December 2023 - June 2024*

- Developed comprehensive cross-platform mobile applications using Flutter, focusing on usability and performance on iOS and Android.
- Built robust RESTful APIs implementing Hexagonal Architecture with Node.js, integrating with modern frontends in Next.js and Angular.
- Executed full QA and software validation cycles, ensuring deliveries free of critical errors.
- Gathered requirements and analyzed client needs to translate business problems into effective technical solutions.

CERTIFICATIONS

- AWS Cloud Technical Essentials [AWS]
- Backend development with .NET [Microsoft]
- Flutter Mobile from zero to expert [DevTalles]
- Node.js from zero to expert [DevTalles]
- Python & Machine Learning [Kaggle]

SKILLS

- Backend: Java, Spring Boot, Node.js, ASP.NET , C#, Python.
- Frontend & Móvil: React.js, Angular, Flutter, Dart, Vue.
- Cloud & Tools: AWS, Docker, API RESTful, Git.

EDUCATION

Multiplatform app development   **IFP   2022- 2024**
